"It's the good life"

Next General Meeting Saturday Dec 12 2009 At the firehouse, Starts 1:00 p.m.

This meeting is a Nomination meeting for new board members and general membership business. Please come spend some time with your neighbors.

Board News

The firehouse should be functional by meeting time. Not complete but getting closer. This could not have been done without many many people. Most of all Joe Harvin for getting us the Insurance money. Moe and Camille Schwandt for staying on top of Fema and filling out all those forms. Dianne Lipps for her relentless pursue of a Contractor and many volunteers to help with framing, sheet rocking, pile driving and land fill (coming soon). The contractor is Christine Barnhill of Billbar Construction. Ms Barnhill has done a great job organizing the chaos of a limited budget job, permits and inspections plus using volunteers in much of the work.

Some of the volunteers who did most of the work include, Ray Lipps, Chester Dominique, Moe Schwandt. Al Royerre of RCC Carpets donated the tile and people to install it in the bathrooms. Other volunteers were Darrin Johnson, Marcel Bellegarde, Mike Over, Dick Pearsall and Larry Bethea. Wayne Sandoz donated his time to develop and author an Appraisal needed to get the permits.

We have spent about 75% of the money allotted at the last meeting but have since gotten some of that money back from Fema and hope to get much more. Looks like we will have enough to complete the building. We will have more details at the meeting.

Fire Committee

The Volunteer Fire department along with civilian volunteers have been testing our new pumps every month so if and when they are needed they will be ready. The VFD has received some Grant monies for more equipment and they will be buying that equipment shortly.

It's Your Wake

Northshore Subdivision

- all of the canals within the Northshore Subdivision and along Carr Drive and specifically the unnamed waterway known as the "Carr Drive Canal" from Lake Pontchartrain to the bridge at Highway 11.

C. Definitions:

1. "Dead Slow" or "Dead Slow, No Wake" - shall be the minimum possible speed that any vessel or watercraft can travel and still maintain safe steerage.

2. Watercraft - any vessel or craft powered by any means designed for transport across the surface of water. (Including boats, ships, personal watercraft, barges, seaplanes, hovercrafts...etc).

D. Enforcement: Enforcement of this section of the Code of Ordinances is authorized, directed and empowered to the following entities: agents of the St. Tammany Parish Sheriff's Department, Louisiana State Police, agents of the Louisiana Department of Wildlife and Fisheries, and any other duly authorized peace officer of the State of Louisiana."
