**** NEW YEAR EVE PARTY ***

The Annual New Years Eve Party will be happening at the Fire House. When you may ask, well December 31st of course, starting at 7:30pm. How much you may ask, well only \$10.00 per person, there will be live music and fun for all.

Call Dianne, Camille, or Buddy for more information and to get tickets for the festivities.

It has come to our attention thru John Lopez, that the Facine Canal will start to have Hurricane Katrina cleanup in the next few weeks or so, the pages at this end of this Newsletter will show what has been approved, and there is a more detailed description with pictures and sonar of the "Targets" on the Website, just remember that these "Targets" are from 2008 survey, and since Hurricane Isaac some may have moved or floated away. Any how this is what is supposed to be looked at and removed.

Leo Richardson the brother of Tague Richardson who lives on Carr Drive is spearheading this for us as he works for the State. If you have other items or questions you can call him:

Leo F. Richardson, II
State Marine Debris Coordinator
Disaster Recovery Division

Governors Office of Homeland Security & Emergency Preparedness
1500 Main Street
Baton Rouge, LA 70802

225-439-5578 iPhone

We would like to thank Tague and Leo for taking this first step since Katrina to get some Debris removed, and look forward to the day when we could get the Mercedes out of the Marsh, and one more pass thru the Finger Canals.

**** Check out the Website for more information ****

Check the website for the latest NSB news. Remember Buddy is always interested in posting some good photos from around the neighborhood. Send them by email or give him a call and he will scan the pictures.

USCG HURRICANE KATRINA PHASE IV DEBRIS REMOVAL

FEDERAL W/W CASE S/O SHEET

Parish: ST. TAMMANY

USCG CASE #: 8530

W/W Name: FACINE CANAL

The above referenced case (See attached Survey / Removal Packet) has been reviewed by the undersigned representatives of the USCG and FEMA. Each delineated target has had its individual removal eligibility determined by an on site FEMA Representative as indicated.

USCG monitors working with debris removal contractors who believe additional eligible debris exists in this waterway should seek a specific eligibility determination prior to actual removal.

USCG monitors working with debris removal contractors must consult and comply with the Environmental Unit Constraints & Best Practices Guidance.
